

JAMES D. LEHMANN, MD

Dr. Lehmann is a board-certified eye surgeon who specializes in cataract, corneal, and refractive surgery. He is a graduate of Seguin High School and the University of Texas at Austin (Plan II). After completing his residency and fellowship at the UT Southwestern Medical Center at Dallas in 2007, he returned to South Texas to join Focal Point Vision.

Dr. Lehmann's practice includes medical and surgical ophthalmology, and he manages both common conditions, like cataracts, and rare, complex diseases like corneal dystrophies and ocular surface injuries. He has an interest in complicated anterior segment surgery and has pioneered the use of The Boston Keratoprosthesis and Deep Anterior Lamellar Keratoplasty in San Antonio.

Dr. Lehmann is a member of the American Academy of Ophthalmology, the American Society of Cataract and Refractive Surgery, the Order of St. John, and is Assistant Clinical Faculty at the UT Health Science Center.

In addition to clinical research and scientific presentations, Dr. Lehmann performs volunteer clinical and surgical duties at the I Care Clinic at the Haven for Hope. He also travels abroad several times a year to teach and perform surgery. Over the last two years, Dr. Lehmann has traveled to Huatulco, Mexico with the Episcopal Diocese of Sheridan, Wyoming to perform cataract surgery, and he has also visited Peru where he was a volunteer faculty with ORBIS International, teaching local residents and doctors new techniques in cataract and corneal surgery. Lastly, he has visited Jerusalem four times, carrying corneas to teach and perform corneal transplants. Dr. Lehmann is married with three children, and he speaks Spanish fluently.

The physicians at Focal Point Vision make it their mission to provide the highest level of vision restoration using the most advanced technologies in a compassionate and ethical way. They are committed to "patients first" and to remain at the pinnacle of eye care for the entire region.

JAMES D. LEHMANN, MD
